

EXISTING LAYOUT OF 14th TEE BOX

Redevelopment of the 14th Tee

Dalby's iconic 14th hole is undergoing a revamp.

As the Dalby club's "Show Hole" the 14th tee area is prominently located near the entry to the course on Moreton street.

The new design features a slightly elevated tee block with generous dimensions both in length and width. Players can easily access the tee by steps from the western side. Easy maintenance and watering by grounds staff is a prime consideration. The boundary of the tee is tastefully landscaped with a low hedge and garden bed.

Prior to the construction process, the plans will be on display for a period while comments and feedback from members and players are evaluated.
